

Reinforcing Update

Edition #1

Welcome to our latest e-newsletter!

We will be keeping you up to date on the latest news, products and developments with OneSteel Reinforcing. In this issue we are relaunching a refreshed website at reinforcing.com along with the new REINFORCING.TV site.

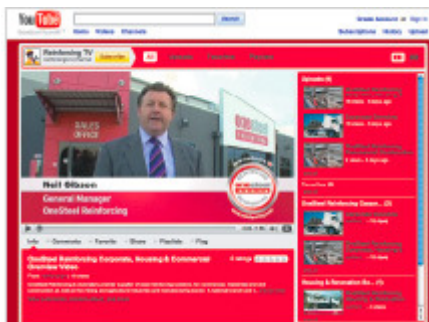

NEW WEBSITE – www.reinforcing.com

The newly redesigned reinforcing.com website has been built with the aim of being the major resource centre for the steel reinforcing industry. Apart from the dynamic new look, it now combines easy and searchable navigation with up-to-date and detailed product information. This includes printer-friendly versions of data sheets, case studies, technical papers and specifications. Visitors to the site can also view the latest videos on product demonstrations, installations and case studies.

> [Visit our new website](http://www.reinforcing.com)

A new dimension in reinforcing YouTube™ VIDEO SITE – www.reinforcing.tv

With the internet becoming an ever-increasing communication medium, OneSteel Reinforcing has also launched an industry first, REINFORCING.TV. This innovative YouTube™ channel features an extensive selection of over 70 customer testimonial, customer product and project videos across the housing, commercial and civil construction sectors.
