

# Reinforcing Update

Edition #4

## Welcome to our latest E-Newsletter!

Keeping you up to date on the latest news, products and developments in OneSteel Reinforcing! In this issue we will discuss how TRUSSDEK® and BAMTEC® can save your company time and money!

## Steel Decking Creates A Solid Platform

A complete package solution by OneSteel Reinforcing played a major role in the fast-track construction of a student accommodation building in Melbourne. The MiCasa8 is a \$22m, 219 unit building located between two of Melbourne's leading higher education institutions.

Contributing significantly to the efficiency of construction was the use of TRUSSDEK® from OneSteel Reinforcing. TRUSSDEK® is a lightweight permanent composite formwork system, which is easy to handle and install to instantly create a safe and stable working platform.

## Unrolling An Efficient Slab Solution For Residential Apartments

Residential Towers in Hurstville in Sydney's South will be a seven storey complex consisting of seven commercial suites and 62 split-level residential apartments. Making a substantial contribution to the efficiency and cost saving of construction is the use of prefabricated BAMTEC® carpets from OneSteel Reinforcing.
