

# Reinforcing Update

## Welcome to our latest E-Newsletter!

Keeping you up to date on the latest news, products and developments in OneSteel Reinforcing. This issue introduces the new edition of REODATA 3.0 with references to the latest version of AS3600 and also the relaunch of REO Calculator, the steel reinforcement area calculator.

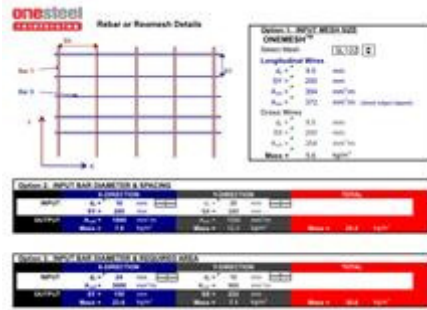

## REODATA 3.0 – Everything you need to know about REO

OneSteel Reinforcing's 2010 edition of REODATA Version 3.0 has been updated to include the latest information on 500PLUS® REBAR and ONEMESH® steel reinforcement. REODATA 3.0 also reflects important new developments in the latest AS3600 in particular concerning stress development and splicing of reinforcement. The new REODATA booklet is the most comprehensive edition ever produced by OneSteel Reinforcing with more in-depth and relevant information on reinforcing Standards, handy information on how to use REO products, and also the range of OneSteel Reinforcing specialised solutions to save time, cost and resources.

## REO Calculator – A handy online tool for steel reinforcement calculations

The steel reinforcement area calculator or REO Calculator can be used to determine the nominal areas of main REBAR and REOMESH produced by OneSteel Reinforcing. REO Calculator is just one of many handy tools found in the Technical Resources page of reinforcing.com.
