

Building a concrete pool?

Before you jump in, make sure your builder is using OneSteel POOLSTEEL®.

onesteel reinforcing **poolsteel**

All well-built Concrete Pools have a Reinforced Steel SKELETON™ as their backbone. The reinforcing steel gives the concrete strength and durability, and for many years the best reinforcing steel for pools has been POOLSTEEL® from OneSteel Reinforcing.

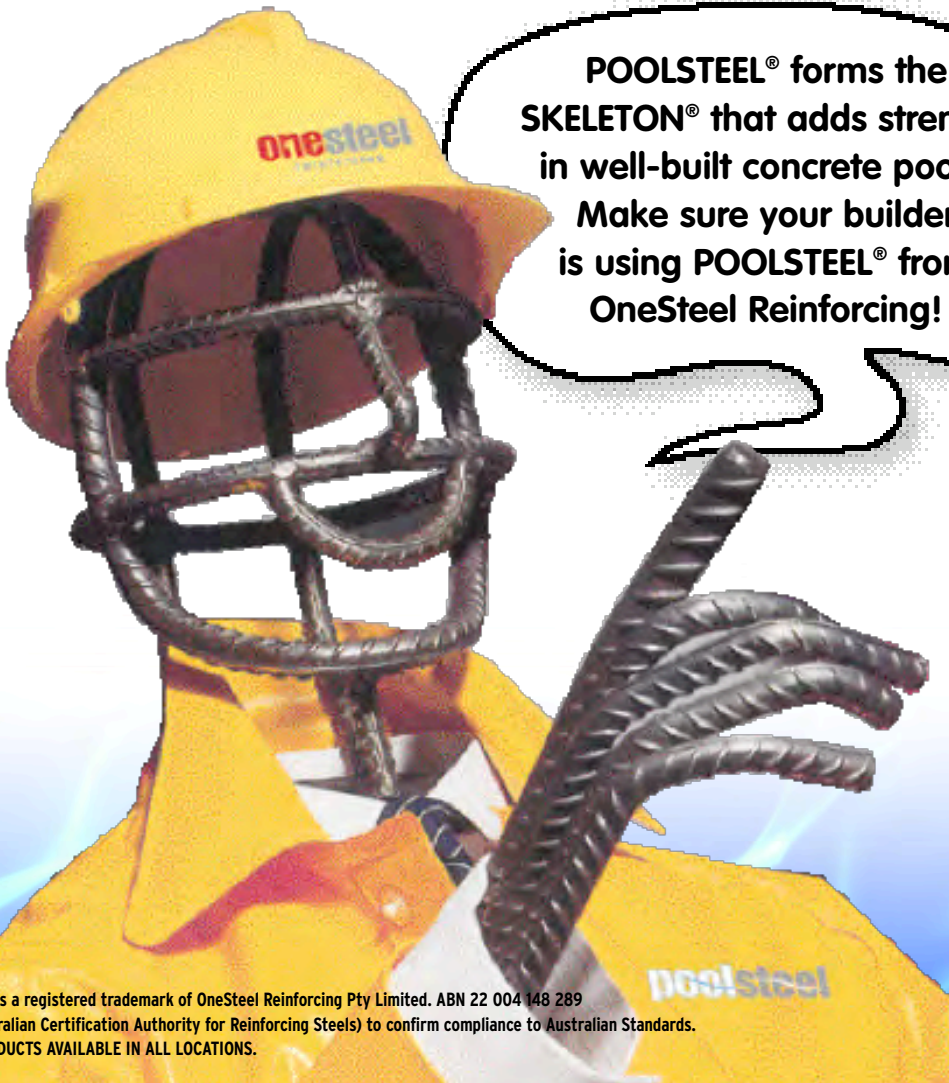

Why POOLSTEEL® is the choice of leading pool builders throughout Australia:

- POOLSTEEL® is designed specially for use in swimming pool construction
- POOLSTEEL® is made in Australia by OneSteel and meets or exceeds Australian Standards AS2783 & AS4671 concerning steel reinforcement and swimming pools
- When installed correctly POOLSTEEL® provides assured performance and ensures the pool stays in top condition throughout its life.
- OneSteel Reinforcing products are independently certified by ACRS*

Ask your builder if they are supplying POOLSTEEL® from OneSteel Reinforcing. It's your assurance of quality and performance.

For further details on POOLSTEEL® & authorised POOLSTEEL® suppliers, please visit www.poolsteel.com.au, email poolsteel@reinforcing.com or contact OneSteel Reinforcing

POOLSTEEL® forms the SKELETON® that adds strength in well-built concrete pools! Make sure your builder is using POOLSTEEL® from OneSteel Reinforcing!
